Mr. Bill Pippin
5504 Forest Hill Dr.
Fort Worth TX 76119

Dear Mr. Pippin:

I want to thank you for your contribution to our recent mission trip to Honduras by providing us bus transportation to and from the airport. Being able to meet at the hospital and ride to the airport together started the trip off on the right tone.

We were able to make a significant contribution to the people of Honduras by providing clinics where over 1000 people with no other access to health care were seen by a doctor. We also helped with the construction of a dormitory for the kids who live at Pan American Health Services, which is a home where kids live for some period of time when their parents cannot afford to feed them. Many of the kids would not be alive if it were not for this vital ministry. We also provided Christian programming for the kids, which they truly enjoyed.

When we returned home and were delayed several hours by the airline, but were greeted at the airport by Willie with a great attitude despite the 6 hour delay, it made a great finish to the trip. We so much appreciate your willingness to partner with us in this trip by providing the transportation at no cost.

Thank you!

Pete Weber
President/CEO
